OpenGD77 CPS Keyboard shortcuts by DJ0HF

OpenGD77 CPS MAIN WINDOW

ALT +
f Open File menu
s Open Settings menu
p Open Program menu
v Open View menu
r Open Radio Type menu
e Open Extras menu
l Open Language menu
w Open Window menu
a Open About menu
F4 is Exit CPS

Most of the CPS navigation is standard windows so TAB between items or ENTER to select a button, cursor up and down in lists etc. and covered in detail in my tutorials. My whole package with the tutorials can be downloaded from :-

www.spencerweb.net/Downloads/OpenGD77/opengd77.html

In most menu's typing first character of the item will open the window for that item. So for example after ALT+e you have the extra's menu and hitting f will bring up the firmware upload window.

Contact Window
Space Bar when on a contact line will open the contact for editing.
To add contacts use the Add button or Ctrl+i
To delete contacts use Ctrl+Delete

Channels Window
Space Bar when on a Channel line will open the Channel for editing.
